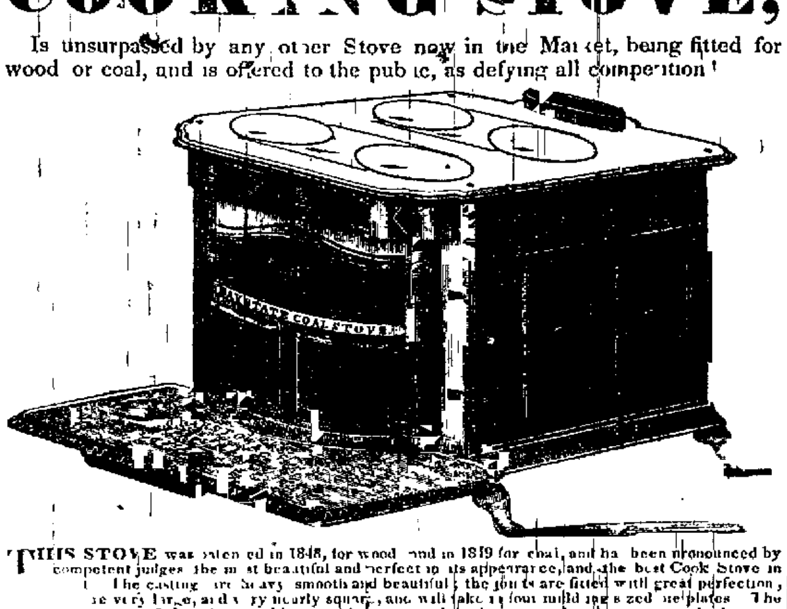
THE BEST STOVE NOW IN USE.

THE BAY STATE COOKING STOVE,

Is unsurpassed by any other Stove now in the Market, being fitted for wood or coal, and is offered to the public, as defying all competition!



THIS STOVE was patented in 1848, for wood, and in 1849 for coal, and has been pronounced by competent judges the most beautiful and perfect in its appearance, and the best Cook Stove in [illegible] The castings are heavy, smooth and beautiful; the joints are fitted with great perfection, [illegible] are very large, and very nearly square, and will take in four middling sized [illegible] plates. The [illegible] arranged that the wood lays and burns upon the ashes, instead of a grate, by which means [illegible] be preserved for a long time, and as the oven projects under the fire chamber, the fire and [illegible] give a beautiful heat over the front of the oven, and causes the whole oven to heat equal [illegible] beautiful apparatus for toasting and broiling, by which means all the smoke is taken off in [illegible]

[illegible] Stove has a cylindrical [or] oval cylinder, lined with soap stone, or fire brick, and confess[illegible] form of fire chamber in which to burn coal.

[illegible] the subscriber in the superiority of the above Stoves over all others in the market that he will, after a fair trial of thirty days, refund the money and all expense if [illegible] it does not meet the expectations of the purchaser.

The largest, best selected, and most desirable Stock of Air Tight Cooking, Office, and Parlor Stoves, in this market at Wholesale and Retail. Also Cooking Ranges and Hot Air Furnaces, at prices to suit the times.

On hand as usual a large assortment of LEAD PIPE, CASTINGS, COPPER and TIN WARE, and all other articles usually found in establishments of the kind.

N. B. COPPER, SHEET IRON and TIN WARE manufactured, as above, and by the best of workmen.

Orders gratefully received and promptly Executed.

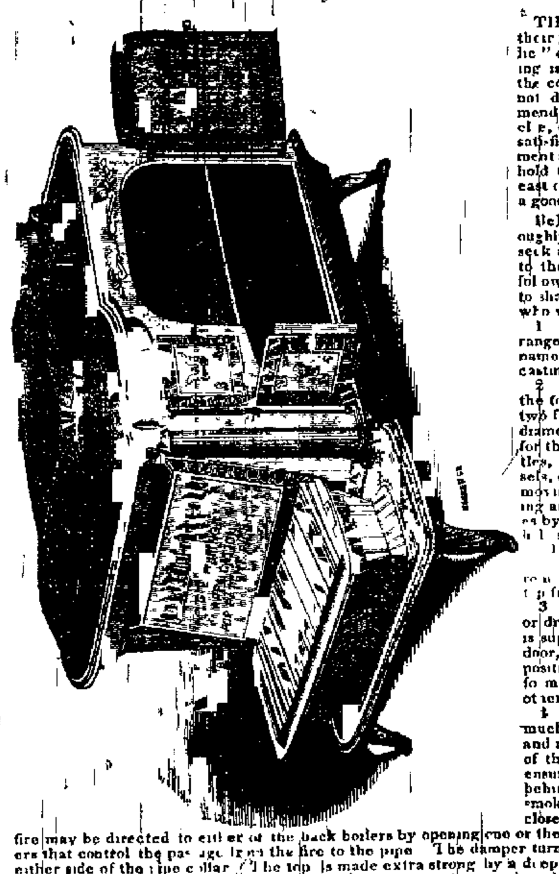
REPUBLIC AIR-TIGHT COOK STOVE.



THE subscribers, in offering their new Stove called the "Republic" of which the annexed engraving is a correct representation, to the consideration of the public, do not deem it necessary to recommend it as superior to every thing else, or a cure for all the ills of life, satisfied that persons of good judgment and correct taste will not withhold their approbation, but will at least on trial find it all they want of a good cooking stove.

Believing that those who thoroughly examine their stove will not seek a better one, they would offer to those unacquainted with it the following reasons why they expect to share freely the favors of those who wish to purchase.

1. Its general economy of arrangement, comely proportions, ornamental appearance, and heavy castings.

2. The particular construction of the top plate, by which either of the two front holes may be enlarged in diameter from three to four inches, for the accommodation of brass kettles, or other large bottomed vessels, or they may be united by removing the two lift-out pieces, forming an oblong oval twenty one inches by eleven in the No. 8 or 8 inch [illegible] stove thereby affording a place [illegible] reception of an unusually [illegible] boiler, at the same time removing the exposed part of the top from the intense heat of the fire.

3. A drop front door, with an air or draft slide, by which the furnace is supplied with heated air. This door, when let down to a horizontal position makes a convenient platform for a broiler, toasting iron, or other utensil.

4. The flues or fire passages are much larger than in ordinary stoves, and rounded wherever the direction of the current is changed, thereby ensuring a full and free draft over, behind, and under the oven, the smoke pipe when the dampers are closed. Or the whole force of the fire may be directed to either of the back boilers by opening one or the other of the two swing dampers that control the passage from the fire to the pipe. The damper turns pass through the top plate on either side of the pipe collar. The top is made extra strong by a deep flange cast on the inside, extending from the front to the pipe collar, and resting on the oven top divides the current from the fire in its passage to the descending flues, or to the exit pipe when the dampers are open.

5. The upper side of the oven top is speculated and coated with a non conducting cement, thereby protecting the top of the oven from too intense a heat—a difficulty much complained of in revertible flue stoves.

6. The oven bottom is made thoroughly hot by the large space allowed to the flues through which the heat passes in its way to the exit pipe, and also by the spiculae on the stove bottom, coated like the oven top with non-conducting cement which prevents the loss of heat downwards.

Also, *every* description and pattern of cook stoves to be found in this market, *without any exceptions* together with every article usually kept in a stove establishment.

....IMPROVED....

Patent Bedstead.

THE Subscribers have purchased the right of manufacturing and vending **HINKLEY'S IMPROVED PATENT BEDSTEAD** for the city of Bangor.

This improvement is simple in its construction and consists in furnishing a substantial Bottom to Bedsteads which shall be elastic and have all the advantages of a Slat, or Sacking Bedstead while at the same time, it serves to secure the posts and rails compactly together without other aid. It can be fitted to any Bedstead, *old or new*, with much less time and labor than is required to put in a cord, and when fitted, gives *great strength* and support and keeps the Bedstead in proper shape. It cannot be doubted that this simple improvement, will when known take the place of every other method now in use. We can confidently recommend the above improvement to our customers and to the public as the cheapest most substantial and best Patent Bedstead ever invented.

The Public are respectfully invited to call and see for themselves. SHAW & MERRILL,

AUSTRIA.

Austria has for a thousand years been one of the grandest and firmest monarchies of Europe. If she did not actually give the *law* to surrounding nations, her opinions have had as much weight as those of any kingdom in Europe. Her armies have commanded the admiration of the world for their bravery and their discipline. Her prime minister, Metternich, who has guided her policy for a half century, and has reputedly outwitted the shrewdest diplomatists, many of whom compared with him, are almost drivelling idiots. But "Illum has fallen, and the great glory of the Trojan race." Among the nations there are none left to do her reverence. What is the cause of this loss of greatness and respect? Why has she thus become almost a political nonentity, certainly the scorn of the world?

First, she had the ambition of presenting the most powerful barrier against the rights of men on the continent of Europe. Through the dread of the spread of liberal principles, she has become the China of Europe. The great object of Austria has been to crush the spirit of Liberty. But neither legal enactments, nor the most rigid system of espionage, nor bolts, nor bars can keep the human soul from progress to its high destiny. When it is God's good time that man should awake, no drug can prevent his awakening. She has muzzled the press, but the doings of the Republic have somehow penetrated the cottages of the peasantry. She has prohibited the reading of the Bible, but men have found means to read it, else how came their uprisings to be tempered with so much wisdom and discretion. Her youth used to travel abroad to obtain their instruction in the schools of Germany and Prussia, but they came home with principles too liberal to suit the temper of the Emperor and the practice was prohibited. Even learned men of her own country are looked upon with jealousy and suspicion. Ignorance and despotism are twin sisters. During the Congress of Laybach the Emperor of Austria said to the teacher of a public seminary, "I want no learned men in my dominions." There are to-day thousands of men immured in dungeons for daring to *think*; those dungeons hallowed by the sufferings of that great apostle of Liberty, Lafayette.

Austria is composed of four divisions, Hungary, over which she will for the future have a very precarious control, Bohemia, Tyrol, the land of song and romance, now sleeping in the shadows of the mediaeval age, and Austria proper, divided by the Danube, whose capital is Vienna, the most splendid and voluptuous of modern cities. The present king is Francis Joseph the nephew of Ferdinand, who abdicated in his favor during the revolutionary melee.

In 1848 many a king and minister found their authority becoming small by degrees, and beautifully less, and even fled for their lives before the people they had oppressed.—Ferdinand, for years had been regarded as a kind of most meagre abilities, but a profounder spirit swayed the councils of the nation. But when Metternich was driven away, and poor Ferdinand was at the mercy of his rash and revengeful Cabinet, and was unwilling to let loose the dogs of war upon his loyal Hungarians, they forced him to abdicate, and found Francis Joseph not unwilling to rouse the indignation of the Hungarians, and the unhappy consequences they have reaped in finding their country reduced to the last shadow of a nation. This brings us to the second cause of Austria's present degraded condition. She has violated her faith with Hungary. She has, by her inhuman conduct, forever alienated from her one of her fairest and largest divisions. The Aulic council will never again control her destinies. The children of Hungary will grow up with the curse of Austria upon their lips. But she has lost her respect in calling in the aid of Russia. She could not subdue Hungary alone.—Every nation now knows her weakness, and she has become dependent upon Russia who will soon dictate terms to her as to one who dares not repel them. Hungary has become a prey to Russia and another Poland will be made of her if she does not submit. Austria has lost the *prestige* of her name. The most colossal governments, as soon as they lose the integrity of their empires and the prestige of their invincibleness, sink rapidly into decay. The clock of Austria appears to have struck.

And what is her financial condition? Nothing but utter bankruptcy is before her. Her agents are traversing Europe to effect a loan to relieve her enormous debt. Right nobly has Mr Cobden, in England opposed this loan.—He views this subject in a two-fold aspect, as a question of commercial prudence, and of political morality. Austria has been twice bankrupt and he warns all cautious persons from putting a finger to this doubtful loan. He shows that they have not the means of paying; that they must necessarily, if they obtain it, entail upon unborn millions a debt which will shorten their daily allowance of food during their whole lives. He condemns the *funding* system *in toto*. He considered that it, in principle, it was unjust and indefensible to subscribe to this loan. "War was so devastating in its nature, that it must, if a country is left to itself come to a speedy termination, but if other countries are suffered to step in with supplies, the result must be to perpetuate the war."

How fortunate is the lot of the denizens of this Western World to be away from the stormy battlefield, and the dreadful commotions which now agitate Europe. Here at a safe distance we can hear the sounds of the great Babel and not feel the stir. We pursue the arts of peace under our own vine and fig tree, with none to molest or make us afraid. If we continue to love [illegible] institutions of learning, and [illegible] institutions of religion, we may long be [illegible] war, and [illegible] miseries which follow in its train.

Concert on this Evening.

The Band of Sisters, born on the soil of Maine, and showing great skill in Music, have delighted the people in many of the towns in our State and now, at their own home, have been highly applauded as prodigies in the musical art, have arrived in this city, full of glee and delighted with our young and smart looking city, and will give a concert on this evening at Market Hall. They are yet quite young, their ages respectively being 16, 12 and 8 years, but they evince uncommon skill in both vocal and instrumental music, sufficient to afford a high entertainment to any company of musical judges, and high pleasure to popular audiences. Our people ought to feel an interest in giving a kindly and generous reception to these rare specimens of native talent, while in return they will be greeted with a concert of sweet strains making their hearts glad, and affording them high satisfaction. Let the pleasant thing be done for the charming sisters on this evening.

Interest Table.—Mr J. B. Paul has left with us an interest table so neat, convenient and easily understood that every boy and girl can understand it at the first glance, and it is sufficiently extensive to answer all business purposes. All who have anything to do with casting interest, and almost every body has some interest in it, should have one of these tables in his place of business and find the work all accomplished to his hand.

This table is the invention of S. E. Beard and is for sale here by Mr. Paul. It is the best table for the purpose we have ever examined.

Mr Alfred Gilman has been appointed Postmaster at Lowell Massachusetts. This is a capital appointment. It does justice to all parties. It bestows a just reward to true merit.—There has been some delay but a very close investigation has happily, as usual, resulted in an appointment which cannot fail of giving satisfaction to the citizens of Lowell and strength to the administration. Mr Gilman is a mechanic and in his appointment the working interest of that great hive of industry has been consulted and gratified.

Hume's History of England.—We have received from Mr Bugbee the fourth volume of Messrs Phillips, Sampson & Co's Boston edition of this history. The work will be comprised, unabridged, in six volumes, the last volume of which will contain a complete index of the whole work, an important feature, which we believe is wanting in all other editions. Bugbee has a supply of this and the preceeding volumes.

The great foot race which came off in Buffalo, on the 24th ult between Jackson, the American Deer, and several well known Indian runners, resulted in favor of Canada, a descendant of the Five Nation from Cattaraugus who ran the ten miles in the short space of 55 minutes and 18 seconds, beating Jackson by over twenty rods.

Sacred Rhetoric.

Prof Ripley has got up a work upon this subject in the style and after the manner of the work of Whateley. A treatise on Rhetoric seems to be a great desideratum, as the special rules for pulpit oratory have been but imperfectly laid down in the ordinary works upon Rhetoric. If the preaching of the gospel is necessary, nay indespensible, surely it is of importance that it be so preached as to reach the hearts of the hearers. The manner goes much further than the matter, after all that is said and done. No system of Rhetoric can supersede the natural powers, but nature often requires aid in unfolding. It is undoubtedly true that she designed us to walk upright, but the helping hand of the mother is necessary in our first steps. Rhetoric, it is said, is the art of making the worse appear the better reason; if this were true, let us all study it and no trick could be practiced. An acquaintance with it by persons is necessary to the discovery and exposition of artifices. No system of jugglery can go down where all understand its tricks. But this is not the legitimate use of Rhetoric. It is only its abuse. It is a noble study—it was the delight and study of Aristotle—of Cicero and Quintilian—it engrossed the hours of the philosophic Campbell, of beauty-loving Blair, and of the clear and logical Whateley.

We would cordially recommend the study of Ripley's Sacred Rhetoric to all lovers of fine composition, and of all who are desirous of improving in their style of composition. X

From the California Trains.

By the Western mail, we have some interesting accounts from the overland parties to California, which are published in the St Louis papers of the 2d ult, and an imperfect summary of which was forwarded by telegraph several days since. A correspondent of the St Louis Republican, who dates his letter, 'Green River California Territory, August 19, says

'From Laramie grass began to fail for our stock, and the utmost diligence had to be used to sustain them. From thence after the first fifty miles, dead cattle and fragments of wagons came in sight, and as far as here, I have counted about one thousand wagons that have been burnt or otherwise disposed of on the road.

Along the banks of the North Platte to where the Sweetwater road turns off, the amount of valuable property thrown away is astonishing,—iron trunks, clothing, &c., lying strewed about to the value of at least $50,000 in about twenty miles. I have counted about five hundred dead oxen along the road, and only three mules.

Death seems to have followed the emigration out thus far, although in a mitigated degree as to numbers.'

[The writer here gives a list of twenty graves which he met with on the road, but none of the dead are described as of the New England States.]

Another correspondent of the same paper writing from Fort Laramie, Sept 18, says

'News from the Salt Lake has just reached here and the accounts from the emigrants are anything but flattering. Between fifteen and twenty thousand emigrants according to these accounts will [illegible] as the [illegible] winter among the Mormons [illegible] number of [illegible] will readily see [illegible] with the limited supplies [illegible]

[illegible] was raised by the careless or wanton conduct of the leading portion of the [illegible] in burning the country beyond the Salt Lake. All the grass is consumed for nearly two hundred miles, which, of course, renders the passage of animals impossible.

River Rail Road.

We are happy to learn that a company of Engineers are engaged in locating a route for a Rail Road, from some place near the City Point in Bangor by North Bangor, Orono, and Great Works, to Oldtown, with branches to East Great Works, and Millford, and that the prospect is, that a feasible and cheap route will be found.

Of the great need of a road along this line, there can be no difference of opinion among those who are acquainted with the business and wants of the river. That it must be one of the very best paying roads in New England, is as little to be questioned. Such a road would connect the wharves at Bangor with North Bangor, a village which has twenty-five to thirty saws, besides other machinery, for the manufacture of lumber, and a population of 7 or 800 souls, with Stillwater village in Orono containing over 2000 inhabitants, and about 40 saws, and a large number of lath, clapboard, shingle, and other machines for the manufacture of lumber, with West and East Great Works, containing 32 or 33 saws, and other machinery, and over 1000 inhabitants; with Oldtown, with a population of more than 2000, a large number of saw mills, and a large and increasing business, with Millford which has 16 or 17 saws, and something like 500 people. On the line of this route, above Bangor, and in the space of 12 or 13 miles, are not less than 180 saws, *which manufacture, annually, from 150 to 170 millions of lumber*, according as the seasons are favorable or unfavorable, and machinery for the manufacture of large quantities of clapboards, shingles, laths, &c. The supplies consumed in its manufacture all come from Bangor. That a Rail Road properly located, would afford great facilities for the economical and profitable transaction of this business, must be manifest at a glance. And when we consider how large a quantity of short lumber, as it is called, is now conveyed from these villages to Bangor, by teams, owing to the inconvenience, expense, and frequent impossibility of sending it on rafts, and the damage done to the long lumber by making it into rafts, and forwarding it by the river, particularly when the water is low, we can readily perceive how the business on this line requires the facilities that can only be afforded by Rail Road communication.

The rafts from mills above North Bangor, are usually made with five or six pairs of stubbers; this, as every lumberman knows, occasions great injury to the boards—when the water is low, which is the case for a portion of nearly every season, the rafts are small and liable to be seriously damaged, to great losses, and often to detentions of a week or more. At such times, all the lumber would be forwarded on the Rail Road, and the good lumber would probably be so forwarded at all times. All the clapboards, shingles, laths, pickets, heading, boxes, sashes, window blinds, &c, &c, would be sent by Rail Road.

The up freight would be very large, as those who have been in the habit of travelling over the road to Oldtown, and seen the teams with which it is thronged can well believe. The nature of the lumbering business is such as to occasion a good deal of passing between the places of manufacture and sale. There is, perhaps, no road in Maine so much travelled, as that between Bangor, Orono and Oldtown.

This road, connecting Bangor with Oldtown, and with the important intermediate places, and these with each other, furnishes the only mode of locomotion, by which our business interests can be adequately served. Lumber dealers, merchants, suppliers, operators, runners, are called to pass daily, and twice, and thrice daily between some of these places. Here, on the river, is their business—here they must be—here a Rail Road will accommodate and benefit them. In this way, Bangor and the villages which turn out her great staple, are made one. From the mill to the wharf is but a step. One thing is certain, if the city would extend its business and population, if she would go a-head, she must secure a direct, convenient and cheap method of communication with the exhaustless water power in her neighborhood.

A ten pound cannon ball was recently dug up in the Western Cemetery, Portland, supposed to have been sent ashore by Mowatt during his bombardment of that place in 1776.

Emigrants.—The number of passengers who arrived at the quarantine ground, New York, in the six months from April 2d to Oct 1st was 163,193. This is equal to an average of 896 passengers per day.

☞ Amory Holbrook of Massachusetts has been appointed by the President, to be Attorney of the United States for the district of Oregon, vice Joseph J Coombs, who declines the office.

☞ Thanks to Mr Lowell, and Cushing, of the steamer Governor for papers received on yesterday in advance of the mail.

'Ah, John, my uncle has been to New York and your'n hasn't.'

'Well, what of that?' said John, 'my uncle has been in jail and your'n hasn't.'

It is in vain that we deplore the evils of poverty, unless we do what we can to dry up the springs of intemperance.

Amory Hall,
Bangor, Nov 6, 1849.

AT a regular meeting of Amory Engine Company No 4 held on the 5th inst, the following Resolves were read and unanimously adopted:

Whereas, Engine Company No 4 have petitioned, year after year, for more commodious accommodations in the way of an Engine House, and their petitions have been either indefinitely postponed or referred to future City Councils there to be unnoticed, while other Companies have presented similar petitions and their prayers have been granted by the City Government, without (in the view of the members of this Company) any superior claim or merit, therefore

Resolved, That when this Company adjourn it be to meet again on the first Monday after the organization of the next City Government unless sooner called together by a notice signed by all the Officers of the Company.

Resolved, That this Company will not run their Engine after 12 o'clock, Tuesday, Nov 6, 1849, or with any Company during our adjournment, and if we attend any fires we will attend them only as citizens.

Advices from Paris to Friday noon state that during the speech of Marthi u De La Dione on the Roman question in the National Assembly an altercation took place between M Thiers and W Bixio Ex-Minister of Foreign affairs, the latter declared that the former had said the election of Louis Napoleon would be a disgrace to France. Thiers demanded satisfaction and a duel took place immediately. After one shot was fired by each at 25 paces distant, neither of the combatants were wounded. The seconds then interposed and declared that the parties had done all that honor required.

It is stated that the Russian charge has notified the minister of foreign affairs that Russia would regard the entrance of the French fleet into the Dardanels as a declaration of war. It is also stated that orders have been given for the French fleet to join the English at Naples.

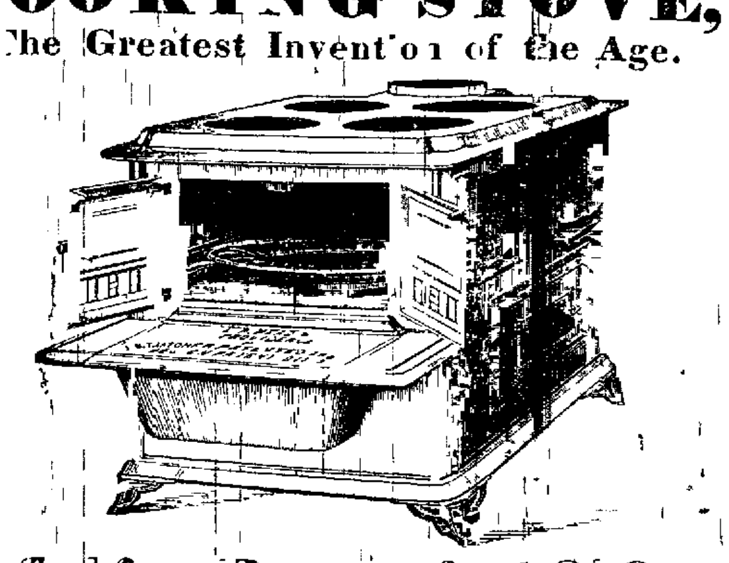
COOKING STOVE,
The Greatest Invention of the Age.



A New Pattern for 1849.

AMONG a host of competitors, THIS STOVE, for its superior advantages took the first premium at the American Institute, city of New York, at the Hartford County Fair Connecticut, at the Worcester Co. Fair Massachusetts and Franklin Institute Philadelphia

One very important improvement in this Stove is the patent *Broiling Chamber* (see cut) by which broiling is done to perfection in from four to six minutes retaining its juices and giving steaks the same fine flavor and pleasant twang of the best charcoal broil (it being equally well adapted to toasting, roasting or frying) with the draft to the fire arch passing through the broiling chamber and effectually carrying off the scent which usually arises from Broiling The broiling department is always ready if being operated by the same fire required for other purposes, and not interfering with any other part of the cooking

The flues being the entire width and passing directly around the oven apply the heat to all parts alike The oven for Baking is not equalled by any Stove in use, *Warranted as above for thirty days*

A New Singing Book!

THE
AMERICAN VOCALIST,
BY REV D H MANSFIELD

PUBLISHED a few months since has had a most rapid sale The Revised Edition is enlarged by the addition of 171 choice tunes, and it now contains more than any other collection It is divided into three parts all of which are embraced in one volume and is designed for the church, the vestry, and the parlor.

PART I consists of Church Music, old and new, and contains the most valuable productions of Billings, Holden, Maxim, Read Holyoke, Edson, Morgan, Pool, Belknap West, Wood, Swan, &c, and eminent American Authors now living —Mason, Webb, Woodbury, White, Kingsley, &c &c &c.—as well as of the most distinguished European composers, as Handel Hayden Mozart Beethoven Pleyel, Mazzinghi, Croft, Greene, Arne Millgrove, Kent, Swiffield, Costelle, Williams Randall, Weber, Neukomm, Cherubini Giardini, Radiger, Venua, Burgmuller, Malan Weisenthal, Wartensee, De Pinna &c, &c, in al 330 Church Tunes adapted to every variety of metre found in the Hymn Books, used by all the religious denominations in the country, besides a large number of Anthems and select pieces for special occasions

PARTS II AND III contain all that is valuable of the Vestry Music now in existence consisting of the most popular Revival Melodies, and the most admired English, Scottish Irish, Spanish, and Italian songs, arranged for four voices, expressly for this work and accompanied with appropriate sacred poetry embracing in a single volume more than 600 tunes adapted to every occasion of public and social worship and containing nearly all the *gems* of music that have been composed within the last 500 years and a large number of tunes never before published, the whole designed as a standard in every department of sacred Harmony

The poetry alone would fill a large volume, a whole hymn being set to a tune instead of a single verse It contains, also a plain and concise System of Elementary Instruction and is particularly adapted to Singing Schools, Musical Societies, and Choirs

MR MANSFIELD has been a teacher of Vocal Music for eighteen years, has travelled extensively in all the Northern and Middle States, and has spared no pains or expense to make himself acquainted with the kind of music demanded for popular use in this country No alteration will be made in future editions

Teachers and others are invited to call and examine the Book Published by

Dr. Townsend's

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonderful Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—it is six times cheaper pleasanter and warranted superior to any sold It cures without vomiting purging sickening, or debilitating the Patient!

The great beauty and superiority of this Sarsaparilla over all other medicines is while it eradicates disease it invigorates the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known it not only purifies the whole system and strengthens the person but it *creates new pure and rich blood* a power possessed by no other medicine And in this lies the grand secret of its wonderful success—It has performed within the last five years, more than 100 000 cures of severe cases of disease at least 15,000 were considered incurable It has saved the lives of more than [illegible] children during the two past seasons

10 000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY

Dr Townsend's Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions and brought on a general physical prostration of the nervous system, lassitude, want of ambition fainting sensations, premature decay and decline hastening toward that fatal disease Consumption, can be entirely restored by this pleasant remedy This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system gives activity to the limbs, and strength to the muscular system, in a most extraordinary degree

CONSUMPTION CURED

Cleanse and Strengthen Consumption can be cured Bronchitis, Consumption, Liver Complaint, Colds Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats Difficult or profuse expectoration, Pain in the Side &c I have been and can be cured

SPITTING BLOOD

New York, April 28, 1847

Dr Townsend—I verily believe that your Sarsaparilla has been the means through Providence, of saving my life I have for several years had a bad cough It became worse and worse At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced and did not expect to live I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me I am now able to walk all over the city I raise no blood, and my cough has left me You can well imagine that I am thankful for these results

Your obedient servant

WM RUSSELL, 65 Catherine st

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings, Esq one of the assistants in the Lunatic Asylum Blackwell's Island, is the gentleman spoken of in the following letter

Blackwell's Island, Sept 14 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat, sleep or walk I had the most distressing pains and my limbs were terribly swollen I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good I am so much better—indeed I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours respectfully

JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend, not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham August 13 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age, who has been several years afflicted with Fits we tried almost every thing for her, but without success at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did for it not only restored her strength but she has had no return of the Fits to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours, respectfully,

JOHN BUTLER, Jr.

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness Prolapsus Uteri or Falling of the Womb, Costiveness Piles Leucorrhœa or Whites, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and lassitude, from taking it at once become robust and full of energy under its influence It immediately counteracts the nervelessness of the female frame which is the great cause of Barrenness — It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "*The turn of life*," should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented!

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable It is highly useful both before and after confinement as it prevents diseases attendant upon childbirth—in Costiveness Cramps Swelling of the Feet, Despondency Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use when applied to the face, very soon spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own product on in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers A free active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flashes of loveliness that all admire but none can describe This beauty is the offspring of *nature*—not of *powder* or *soap* If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies are so much admired, Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr. Townsend's Sarsaparilla Thousands who have tried it are more than satisfied Ladies of every station crowd our office

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff a *great remedy for females, &c, &c* and have copied our bills and circulars which relate to the complaints of women word for word—other men who put up medicine have since the great success of Dr Townsend's Sarsaparilla in complaints incident to females recommended theirs, although previously they did not. A number of these Mixtures, Pills &c are injurious to females as they aggravate disease and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood three persons cured in one house is unprecedented.

THREE CHILDREN

Dr Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine — They were afflicted very severely with bad sores have taken only four bottles, it took them away, for which I feel myself under great obligation Yours respectfully

FITS! FITS!!

HART'S VEGETABLE EXTRACT,

Is the only remedy that can be relied on for the permanent cure of Spinal Complaints, Spasmodic Contractions, Irritation of the Nerves, Nervous or Sick Headache, Nervous Tremors, Neuralgic Affections, Apoplexy, Paralysis, General debility Deficiency of Nervous and Physical Energy, and all Nervous Disorders, including the most dreadful of all diseases that ever afflict the human race

EPILEPTIC FITS,

or Falling Sickness Hysterical Fits, Convulsions, Spasms, &c Dr Hart would impress it upon the minds of the afflicted that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of this most dreadful of all diseases As its tendency is to insanity, madness and death, the most

SKILLFUL PHYSICIANS

of Europe, as well as those of our own country, have pronounced Epilepsy incurable And it has been so considered by many, until this most important of all discoveries was made by Doctor S Hart, nearly sixteen years since, during which time it has been performing some of the most

REMARKABLE CURES

upon record, and has acquired a reputation which time alone can efface. Physicians of undoubted skill and experience, ministers of various denominations, as well as hundreds of our eminent citizens all unite in recommending the use of this truly valuable medicine to their patients, charge, and friends, who are thus afflicted as the only remedy

WE QUOTE THE LANGUAGE

used by those who have been cured by this valuable medicine One says, "I have suffered beyond my power of description, but now I rejoice in being fully restored to health and happiness" Another says, "I thank God I feel that I am a well man I also feel it my duty to proclaim it to the ends of the earth, that those similarly afflicted may find relief Another (who is an

EMINENT LAWYER,

and well known in this city) says my son has been afflicted for years with Epilepsy but is now enjoying good health from the Vegetable Extract Its fame," says he, "should and ought to be sounded to the ends of the earth" Another says, "Language is entirely inadequate to express my gratitude to Dr Hart, for having been the means, under the blessing of God, of restoring me to good health after having been afflicted with Epilepsy in its worst forms for upwards of twenty three years, and my morning and evening oblation of praise and thanksgiving at all continue to ascend to that God who has afflicted but to make me whole"

Mrs J Bracley 115 Orchard street, New York, states that she has been subject to Fits for many years, and has been restored to perfect health (after every other means had failed) by the use of the Vegetable Extract

Dr Charles A Brown of Dover, Russell co, Alabama, who is one of the best Physicians in the State, says that he has been much benefitted by the use of the Vegetable Extract and that he unhesitatingly prescribes it in every case of Epilepsy which comes under his knowledge

Curtis G Slaybarry, Esq formerly Postmaster at Lime Mills Crawford Co, Pa, now living in Erie Co Pa states that for many years past he has been sorely afflicted with Fits, and is now happy to state that a persevering use of Dr Hart's Vegetable Extract has restored him to sound health again, entirely freed from the worst of all diseases

Mr Stephen B Pratt, corner of Sixth Avenue and Twenty sixth Street, New York states that Mr Charles E Boughton, a member of his family has been so severely afflicted with Epileptic Fits for many years that he was obliged to relinquish his business Having used Dr Hart's Vegetable Extract [says M P] he was soon restored to perfect health, and left this city for the State of Ohio to resume his business

Rev Mr Smith, Rector of St Peter's Church, Spotswood New Jersey, who has been afflicted with Epileptic Fits for more than forty years, states that he has used Dr Hart's Vegetable Extract and his health has been so much improved that he hopes by Divine blessing to have no more Fits

EPILEPTIC FITS,

For twenty seven years and six months, cure by the use of this truly wonderful medicine

Read the following remarkable case of the son of Wm Secore, Esq, of Philadelphia, afflicted with Epileptic Fits for twenty seven years and six months—After travelling through England, Scotland, Germany, and France, consulting the most eminent physicians, and expending for medicine, medical treatment and advice three thousand dollars, returned with his son to this country in November last, without receiving any benefit whatever and was cured by using

HART'S VEGETABLE EXTRACT

I have spent over three thousand dollars for medicine and medical attendance I was advised to take a tour to Europe with him which I did I first visited England I consulted the most eminent physicians there in respect to his case, they examined him and prescribed accordingly I remained there three months without perceiving any change for the better which cost me about two hundred and fifty dollars, pocketed by the physicians and the most that I received was their opinion that my son's case was hopeless, and

POSITIVELY INCURABLE

I accordingly left England, travelled through Scotland Germany and France and returned home in the month of November, with my son as far from being cured as when I left I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract seeing your statements and certificates of so many cures, some of twenty and thirty years standing and I can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract alone he was restored to

PERFECT HEALTH

His reason which was so far gone as to unfit him for business is entirely restored, with the prospect now before him of life, health and usefulness He is now 28 years of age and 27 years 6 months of this time he has been afflicted with this most dreadful of diseases, but thank God is now enjoying good health,

Now, sir, faith without works I don't believe in—To say I shall be ever grateful to you is one thing, and as I here enclose you one hundred dollars, I have no doubt you will think this another and quite a different thing The debt of gratitude I still owe you, but please accept this amount as interest on the debt in advance Yours very respectfully,

(Signed,) WILLIAM SECORE.

THE TIME IS NOT FAR DISTANT

When thousands who are now trembling under the hand of this dreadful disease, and fearing that every attack may prove fatal, will find permanent relief and be restored to new life, by using this celebrated medicine

Another Life Saved.

Read the following letter from a Clergyman of Camden, Me, to the Editor of the GOSPEL BANNER —

DOWN'S ELIXIR,—A CURE.

BR DREW—being anxious to do good to my fellow beings, as I have means and opportunity, I wish to state through the Banner, that in my sickness last winter and spring, I received very great benefit from the use of N H DOWN'S ELIXIR

I had been troubled some weeks with a severe cold which so affected the vocal organs, that it was with great difficulty I discharged the duties of my office My cold continued until I was completely prostrated by bleeding which created a dry hard cough My appetite failed my strength wasted, and my flesh disappeared Seeing Wistar's Balsam of Wild Cherry recommended in the Banner, I procured a bottle and commenced taking it, and continued its use until I had taken three bottles, when I became satisfied that it contained opium, making a large amount of physic necessary, and also contracting the very organs that should be relaxed I used other kinds of patent medicines but with no good effect seven weeks I continued gradually to sink under my disease to this extent (at which time, I was extremely weak my skin dry and husky, and my feet and hands cold most of the time I had a dull, heavy pain between my shoulders, and a distressing pain at the pit of my stomach My tongue was coated with a thick, white fur bowels very irregular and costive, hectic fever night sweats, dry, hard cough, difficulty of breathing and low spirits My stomach at this time was so sore and weak, that it was with difficulty I could stand erect This was my situation when I commenced the use of N H DOWN'S ELIXIR—And to my great joy, and the greater joy of my friends I found that the use of it a few days had regulated my bowels, equalized the circulation and produced a healthy moisture upon the skin I used three bottles in two weeks, which entirely removed the soreness and weakness from my stomach gave me a good appetite and greatly improved my strength. I continued its use six weeks, using six bottles at which time I was able to resume my ministerial labors I have since recommended it to a large number, and have never known it to fail of doing good where the directions were followed

I have given it to my children in *colds*, and in a case of *measles*, and it has proved ALL IT IS RECOMMENDED to be

I therefore *cheerfully* recommend N H DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended Yours truly, J. L TUTTLE

Camden, August 1849

Facts deduced from the foregoing letter

1st Down's Elixir is laxative—curing costiveness while other medicines increase that difficulty

2d It is perspirant It equalizes the circulation—restores a healthy moisture to the skin, and vigor and tone to the system

3d It removes soreness and weakness from the stomach—gives a good appetite, and restores strength to the system,

4th It cures colds—is an effectual remedy for the measles, and proves 'ALL IT IS RECOMMENDED TO BE'

SHELL and SILVER COMBS,—a good assortment for sale at PATTEN'S,

McKENNEY'S COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores, Rheumatism, Swelling of the Feet and Limbs, Swelling of the Tonsils or Sore Throat Chronic Eruptions of the Skin, and all Scrofulous Diseases, Rigid Cords occasioned by Colds or Strains, Stiff Neck, Chilblains or Chapped hands, Sore or Inflamed Breast, Weakness or Pains in the Stomach, Piles, Corns, Warts, and Common Sores and Cuts and Bruises, of all kinds

In bringing this article before the Public, we are aware that we labor under no small disadvantage amidst the multitude of "All-Healing Ointments" and "Panaceas" that are now advertised as the "*most effectual*" and *certain cures* for all diseases indiscriminately, to which man or animals are subject

A history of this Salve, and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would only add, that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends, and those who have experienced its wonderful medicinal and all-healing properties

To say, indeed, that we do not expect to realize a handsome remuneration for our services, would be alike useless and untrue But we flatter ourselves that it, forsooth, we are richly paid, and the article soon, very soon, has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated we do not and shall not call to our aid the empty '*puffing of the Press*,' or the 'bought certificates' of individuals, and shall make use of them only so far as they have been or hereafter may be, entirely *voluntary* and *unsolicited*

The Salve is now before the Public!

They, and they alone will decide upon its real virtues and medicinal properties to say less, were injustice to ourselves—to say more would be superfluous

Here are some of the many Certificates:—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee After using many remedies without success I applied some Salve obtained of Mr A M McKenny and continued its application until I had used six bottles which entirely cured me and I have had no return of the disease since. I would also say that I know the above Salve to be a cure for Corns, one of my family having used it for this purpose with complete success

DANIEL HEAVLY

Dexter, (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year and having tried various means to effect a cure without success which cost me about forty dollars I bought 1 Box of JONATHAN McKENNEY'S SALVE which effected an entire cure in less than two months

NEW AND

Important Discovery

GRAY HAIR can be restored to its original color, whether Auburn Brown or Black Sandy Light or Red Hair can be matched with any darker shade, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Hair, by using O M Ballard's

Permanent Liquid Hair Dye,

Of one preparation, which is entirely different from all other preparations of Hair Dye now before the public Is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant, and color it with the Dye, which will not impair its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is not injurious On the contrary, it improves the lustre of the Hair, promotes its growth, and prevents it from falling out and unlike other preparations after the Hair is colored and dry, will not crock, fade, or wash out

In short from its peculiar delicacy softness, and easy application, it is worthy the attention of all who may wish to improve the color of the Hair as it will make any shade from a white, to a jet black It is now used to an unaccountable extent, by persons who have prematurely turned gray and others whose Hair is of no desirable color, which they restore or exchange for a beautiful Auburn Brown or Black, without any additional preparation or the slightest trouble

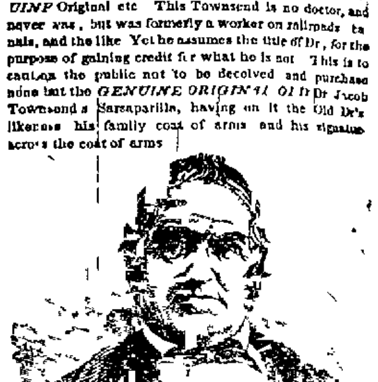
CAUTION EXTRA

A man by the name of *CLAPP* has engaged with a young man of the name of S P Townsend and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it *GENUINE* Original etc This Townsend is no doctor, and never was, but was formerly a worker on railroads canals, and the like Yet he assumes the title of Dr, for the purpose of gaining credit for what he is not This is to caution the public not to be deceived and purchase none but the *GENUINE ORIGINAL OLD* Dr Jacob Townsend's Sarsaparilla, having on it the Old Dr's likeness his family coat of arms and his signature across the coat of arms



Principal Office 102 Nassau st New York City

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR* and *DISCOVERER* of the *GENUINE ORIGINAL TOWNSEND SARSAPARILLA* Being poor, he was compelled to limit its manufacture by which means it has been kept out of market and the sales circumscribed to those only who had proved its worth and known its value It had reached the ears of many nevertheless, as those persons who had been healed of sore diseases, and saved from death proclaimed its excellence and wonderful

HEALING POWER

Knowing *many years ago* that he had by his skill science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated This time has come the means are supplied this

GRAND AND UNEQUALLED PREPARATION

is manufactured on the largest scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration.

Unlike young S P Townsend's it improves with age, and never changes but for the better because it is prepared on *scientific principles* by a *scientific man* The highest knowledge of Chemistry and the latest discoveries of the art have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla The Sarsaparilla root it is well known to medical men contains many medicinal properties and some properties which are inert or useless and others which if retained in preparing it for use produce *fermentation* and *acid* which is injurious to the system Some of the properties of Sarsaparilla are so volatile that they entirely evaporate and are lost in the preparation if they are not preserved by a *scientific process* known only to those experienced in its manufacture Moreover these *volatile principles* which fly off in vapor or as an exhalation, under heat are the very *essential medical properties* of the root which give to it all its value

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from any thing else they can then strain this insipid or vapid liquid sweeten with sour molasses and then call it SARSAPARILLA EXTRACT or SYRUP But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA

This is so prepared that all the inert properties of the Sarsaparilla root are first removed every thing capable of becoming acid or of fermentation is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its favor by men women and children We find it doing wonders in the cure of *CONSUMPTION DYSPEPSIA* and *LIVER COMPLAINT* and in *RHEUMATISM SCROFULA PILES COSTIVENESS* all *CUTANEOUS ERUPTIONS PIMPLES BLOTCHES* and all affections arising from

IMPURITY OF THE BLOOD

It possesses a marvellous efficacy in all complaints arising from *indigestion* from *acidity of the Stomach* from unequal circulation determination of blood to the head palpitation of the heart cold feet and hands cold chills and hot flashes over the body It has not its equal in *Colds* and *Coughs* and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs throat and every other part

But in nothing is its excellence more manifest than and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS

It works wonders in cases of *Fluor Albus* or *Whites Falling of the Womb Obstructed Suppressed* or *Painful Menses, Irregularity* of the menstrual periods and the like and is as effectual in curing all the forms of Kidney Diseases

By removing obstructions and regulating the general system it gives tone and strength to the whole body and thus cures all forms of

Nervous diseases and debility

and thus prevents or relieves a great variety of other maladies as *Spinal irritation Neuralgia St Vitus Dance Swooning Epileptic Fits Convulsions &c*

It cleanses the blood excites the liver to healthy action tones the stomach and gives good digestion relieves the bowels of torpor and constipation allays inflammation purifies the skin equalises the circulation of the blood producing gentle warmth equally all over the body and the insensible perspiration relaxes all strictures and tightness removes all obstructions and invigorates the entire nervous system Is not this then

The medicine you pre eminently need!

But can any of these things be said of S P Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S

because of one GRAND FACT that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS,

while the other DOES *souring fermenting* and *blowing the bottles* containing it into fragments, the sour acid liquid exploding and damaging other goods Must not this horrible compound be poisonous to the system?—*What put acid into a system already diseased with acid!* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischiefs it produces? flatulence heartburn palpitation of the heart liver complaint diarrhœa dysentery colic and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin Scald Head, Salt Rheum Erysipelas White Swellings Fever Sores and all ulcerations internal and external? It is nothing under heaven but an acid substance which sours and thus spoils all the fluids of the body more or less What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases of impurity of the blood, of deranged circulations and nearly all the ailments which afflict human nature

Now is it not horrible to make and sell and *infinitely worse* to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S P TOWNSEND,

and yet he would fain have it understood that Old Dr Jacob Townsend's *Genuine Original Sarsaparilla* is an IMITATION of his inferior preparation!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P Townsend's article! and which should bring down upon the Old Dr such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S P Townsend's FERMENTING COMPOUND

We wish it understood because it is the absolute truth that S P Townsend's article and Old Dr Jacob Townsend's Sarsaparilla are *heaven wide apart* and *infinitely dissimilar* that they are unlike in every particular having not one single thing in common

As S P Townsend is no doctor and never was is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common unscientific unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease It requires a person of some experience to cook and serve up even a common decent meal How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS

should know well the medical properties of plants the best manner of securing and concentrating their healing virtues also an extensive knowledge of the various diseases which affect the human system and how to adapt remedies to these diseases!

It is to arrest frauds upon the unfortunate to pour balm into wounded humanity to kindle hope in the despairing bosom to restore health and bloom and vigor into the crushed and broken and to banish infirmity that OLD DR JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach and to the knowledge of all who need it, that they may learn and know by joyful experience its

EXCLUSIVELY TO

BOYS' CLOTHING,

AND BY FAR THE

LARGEST OF THE KIND IN THE UNITED STATES.

Boys' Garments

ARE ALWAYS KEPT IN OTHER CLOTHING STORES, STILL THIS IS

THE PLACE TO BUY Boys' Clothing!

As they never make Garments for Men, (not even their own,) their attention being wholly devoted to the business they advertise

An extensive correspondence is constantly kept up, and the public may look with confidence to this

ESTABLISHMENT

FOR THE LATEST AND

MOST APPROVED FASHIONS

Their WHOLESALE TRADE is rapidly increasing, and all who purchase Clothing in the city would do well to look at this Stock The custom of advertising low prices has been rendered too contemptible to command the attention of any person of sense All that is asked for this Store is a careful examination of the goods and prices, compared with those to be met with elsewhere
